☐ **FEDERAL**

IMPACT: State & Local

Summary of Legislation: This bill establishes the New Business Recruitment Grant Program for local economic development organizations serving counties where the unemployment rate exceeds 8%.

Effective Date: July 1, 2009.

Explanation of State Expenditures: (Revised) *Indiana Economic Development Corporation (IEDC)*: This bill requires the IEDC to administer the New Business Recruitment Grant Program. The IEDC will require additional staff time to adopt policies and guidelines for application criteria, and procedures for organizations to apply for grants. This bill establishes a Local Economic Development Organization Recruitment Fund that will cover the IEDC's costs associated with administering the program.

The bill does not make an appropriation for the Grant Program or Fund, but it does provide that the Fund will consist of appropriations from the General Assembly, interest income from investments, and any money from state assistance grants provided under the federal American Recovery and Reinvestment Act of 2009 or another federal economic stimulus law enacted in 2009.

New Business Recruitment Grant Program: This bill establishes the New Business Recruitment Grant Program, and its purpose is to assist local economic development organizations serving economically disadvantaged areas with the recruitment of new businesses. The bill defines "economically disadvantaged areas" as counties that have unemployment rates that exceed 8%, and "local economic development organizations" include the following: urban enterprise associations; economic development commissions; nonprofit corporations; regional planning commissions; nonprofit educational organizations; and other similar organizations. Grants provided by this bill may not exceed \$50,000 for an organization that serves

one county, and \$75,000 for an organization that serves at least two counties.

(Revised) *Local Economic Development Organization Recruitment Fund*: This bill establishes the Local Economic Development Organization Recruitment Fund to provide funding for the New Business Recruitment Grant Program. The fund will also cover administrative expenses incurred by the IEDC resulting from the implementation of the grant program, as well as expenses associated with administering the fund. Money remaining in the fund at the end of a fiscal year will not revert to the state General Fund. The bill specifies that the fund will consist of appropriations from the General Assembly, interest income from investments, and any money from state assistance grants provided under the federal American Recovery and Reinvestment Act of 2009, or another federal economic stimulus law enacted in 2009.
